SUMMARY

Hard working web developer and designer with proven leadership and organizational skills seeking to apply my abilities to the position of junior front-end developer. Excels in a collaborative setting with excellent communication skills. Brings in passion about creating user-friendly designs for all because of a background related to traditional art skills, industry trends, graphic design and brand experience.

EDUCATION

**Bachelor of Science in Animation and Interactive Media with a Minor in Studio Art**
Bradley University, Peoria, Illinois, May 2017
Graduated Cum Laude

Coding Full Stack Web Developer Bootcamp
University of Kansas, Overland Park, Kansas, May 2019

EXPERIENCE

Freelance Graphic Designer   **2019**
Great Plains, Salina, KS
   • Communicated with people from different departments to make edits to the logo in progress
   • Brainstormed with the graphic design team to create a new attention-grabbing logo
   • Added experience to the creative process of branding, graphic design, and editing based on client feedback

Freelance 3D Modeler   **2018**
Willbanks Consulting Group, Oklahoma City, OK
   • Consulted with the client through WCG to design the product that was desired
   • Communicated with team members to work on edits
   • Gained hands on experience with Maya, branding, and working together as a team to reach the desired goal

Graphic Design Intern   **Summer 2016**
Dave Magrogan Group, West Chester, PA
   • Implemented menus and advertisements
   • Designed Snapchat Geofilters, and T-shirts for the many restaurants owned by DMG
   • Furthered on hands on experience with graphic design, marketing, and restaurant openings
